PLEASE REVIEW IT CAREFULLY.**

State and Federal laws require us to maintain the privacy of your health information and to inform you about our privacy practices by providing you with this Notice. We must follow the privacy practices as described below. This Notice will take effect on April 14, 2003, and will remain in effect until it is amended or replaced by us.

It is our right to change our privacy practices provided law permits the changes. Before we make a significant change, this Notice will be amended to reflect the changes and we will make the new Notice available upon request. We reserve the right to make any changes in our privacy practices and the new terms of our Notice effective for all health information maintained, created and/or received by us before the date changes were made.

TYPICAL USES AND DISCLOSURES OF HEALTH INFORMATION

We will keep your health information confidential, using it only for the following purposes:

Treatment: We may use your health information to provide you with our professional services. We have established “minimum necessary or need to know” standards that limit various staff members’ access to your health information according to their primary job functions. Everyone on our staff is required to sign a confidentiality statement.

Disclosure: We may disclose and/or share your healthcare information with other health care professionals who provide treatment and/or service to you. These professionals will have a privacy and confidentiality policy like this one. Health information about you may also be disclosed to your family, friends and/or other persons you choose to involve in your care, only if you agree that we may do so.

Payment: We may use and disclose your health information to seek payment for services we provide to you. This disclosure involves our business office staff and may include insurance organizations or other businesses that may become involved in the process of mailing statements and/or collecting unpaid balances.

Emergencies: We may use or disclose your health information to notify, or assist in the notification of a family member or anyone responsible for your care, in case of any emergency involving your care, your location, your general condition or death. If at all possible we will provide you with an opportunity to object to this use or disclosure. Under emergency conditions or if you are incapacitated we will use our professional judgment to disclose only that information directly relevant to your care. We will also use our professional judgment to make reasonable inferences of your best interest by allowing someone to pick up filled prescriptions, x-rays or other similar forms of health information and/or supplies unless you have advised us otherwise.

Healthcare Operations: We will use and disclose your health information to keep our practice operable. Examples of personnel who may have access to this information include, but are not limited to, our medical records staff, outside health or management reviewers and individuals performing similar activities.

Required by Law: We may use or disclose your health information when we are required to do so by law. (Court or administrative orders, subpoena, discovery request or other lawful process.) We will use and disclose your information when requested by national security, intelligence and other State and Federal officials and/or if you are an inmate or otherwise under the custody of law enforcement.

Abuse or Neglect: We may disclose your health information to appropriate authorities if we reasonably believe that you are a possible victim of abuse, neglect, or domestic violence or the possible victim of other crimes. This information will be disclosed only to the extent necessary to prevent a serious threat to your health or safety or that of others.

Public Health Responsibilities: We will disclose your health care information to report problems with products, reactions to medications, product recalls, disease/infection exposure and to prevent and control disease, injury and/or disability.

Marketing Health-Related Services: We will not use your health information for marketing purposes unless we have your written authorization to do so.

Non-routine Disclosures: You have the right to receive a list of non-routine disclosures we have made of your health care information. (When we make a routine disclosure of your information to a professional for treatment and/or payment purposes, we do not keep a record of routine disclosures: therefore these are not available.) You have the right to a list of instances in which we, or our business associates, disclosed information for reasons *other than* treatment, payment or healthcare operations. You can request non-routine disclosures going back 6 years starting on April 14, 2003. Information prior to that date would not have to be released. *(Example: If you request information on May 15, 2004, the disclosure period would start on April 14, 2003 up to May 15, 2004. **Patient Acknowledgement and Consent Form for
Midnight Sun Oncology
2490 S Woodworth Loop Suite #499
Palmer, AK 99645**

The Department of Health and Human Services has established a "Privacy Act" to help insure that personal health care information is protected for privacy. The Privacy Act was also created in order to provide a standard for health care providers to obtain their patient's consent for uses and disclosures of health information about the patient to carry out treatment, payment, or health care operations.

As our patient, we want you to know that we respect the privacy of your personal medical records and will do all we can to secure and protect that privacy. We strive to always take responsible precautions to protect your privacy. In order to provide services that are in your best interest, when it is appropriate, we provide the minimum necessary information to only those we feel are in need of your health care information, information about treatment, and payment or health care operations.

We also want you to know that we support your full access to your personal medical records. We may have indirect relationships between our office and other companies pertaining to your care (i.e. laboratories that only interact with physicians). It is possible that we may have to disclose personal health information for the purpose of treatment, payment or health care operations. These entities are not required to obtain patient consent.

I understand that my health records may include information both created and received by this practice. This information may be in the form of writing, electronic records, and spoken words and may include information about my health history, health status, symptoms, examinations, test results, diagnosis, treatments, procedures, prescriptions, and similar types of health related symptoms. I understand and agree that this practice may use and disclose my health information in order to:

- Make decisions about and plan for my care and treatment.
- Refer to, consult with, coordinate among, and manage along with other health care providers for my care and treatment.
- Determine my eligibility for health plans or insurance coverage and submit bills, claims, and other related information to insurance companies or a responsible agent for payment of my health care.
- Perform various office, administrative, and business functions that support my physician's effort to provide me with, arrange, and be reimbursed for quality health care.

You may refuse to consent to the use or disclosure of your personal health information, but this must be in writing as mandated by the Privacy Act. Under this law, we have the right to refuse treatment should you choose not to disclose your information. I also understand that I have the right to ask that some or all of my health care information not be used or disclosed, and understand that this practice is not required by law to agree with such requests.

I have reviewed and understand this consent form.
